PROFILE

Full-stack JavaScript engineer with a frontend-first mindset and strong backend foundations in **React**, **Next.js**, and **NestJS**. Experienced in refactoring production systems, building data-driven dashboards, and shipping features in fast-paced startup environments. Particularly interested in **system design**, **backend architecture**, and **scalable APIs**, with a clear trajectory toward **solution/system architecture** roles.

PROFESSIONAL EXPERIENCE

Full-Stack Developer — Rooly

Oct 2024 – Dec 2025

- Refactored a legacy TypeScript/React analytics platform for an enterprise client, improving **system performance** and **long-term maintainability**.
- Led frontend development of a high-fidelity marketing platform, implementing complex UI/UX with pixel-perfect responsiveness across 5 device breakpoints.
- Built interactive data visualization dashboards using amCharts and Nivo, and developed supporting backend APIs in **NestJS** with **MongoDB**.
- Contributed to feature delivery and maintenance in an agile, cross-functional team, focusing on **clean architecture** and **scalable solutions**.

Front-End Developer Intern — Daleelteq

Nov 2023 – May 2024

- Completed a structured learning program focused on core **JavaScript**, **ReactJS**, and **Tailwind CSS**.
- Developed foundational web applications with guidance and code reviews, building skills in component-based architecture and React fundamentals.

PROJECTS

AcademyExpert (Full-Stack SaaS Platform – University Team Project) | Angular, Express.js, Node.js, MongoDB

- Contributed as a full-stack developer to a multi-role platform (Admin, Manager, Trainer, Learner, Recruiter) following an established **modular application architecture**.
- Developed frontend components in Angular and built **RESTful APIs** with Express.js, documented using Swagger.
- Integrated multiple third-party services: payment gateways (Stripe, PayPal, Flouci), AI (Hugging Face, OpenRouter), and utilities (Google Maps, Cloudinary, EmailJS).
- Implemented **database logic** using MongoDB queries and aggregations for data retrieval and reporting features.

EDUCATION

Private Higher School of Engineering and Technology (ESPRIT)

Expected 2026

Engineering Student in Computer Science

Higher Institute of Education and Continuing Training (ISEFC)

2023

Bachelor's Degree in Electrical Engineering

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, Angular, Tailwind CSS

Backend & APIs: Node.js, NestJS, Express.js, REST APIs, GraphQL, JWT, Socket.IO, Swagger

Database & Tools: MongoDB, MySQL, SQL, Git, Linux, Bash, UML

SOFT SKILLS

Problem-solving — Team Collaboration — Agile/Scrum — Technical Documentation — Code Review

LANGUAGES

Arabic (Native) — French (Professional) — English (Professional)

CERTIFICATIONS

- Front End Developer - React JS — GOMYCODE
